

## PCH 593-09 Prospectus Draft Grading Grid

Name: \_\_\_\_\_

Special Project: \_\_\_\_\_

Draft Number                      1                      2                      3 (Final)

Grade: \_\_\_\_\_

Submit this Grading Grid with each prospectus draft you submit. I will be using this grid to evaluate the completeness of your draft.

Keep in mind, the narrative portion of your prospectus should be no longer than 15 pages. This excludes preliminary pages, appendices and reference list.

For each draft, include all the headings and subheadings you would have for the final prospectus even though you may not have all the content ready. If you are missing content, then say so in that section, in parentheses.

For drafts #2 and #3

- ✓ Submit the immediate prior graded draft
- ✓ Highlight the corrections and additions you've made in **yellow** in the current draft

### Preliminaries

Questions to be Answered	√
<b>Title Page</b>	
Did you include the project title?	
Did you include the author's name?
